April 2004

The Parks and Trails Committee is recommending that Elk Ridge begin work on a city wide non-motorized, recreational trail. As part of the process we are seeking input and comments from the residents of Elk Ridge. The Tentative route and construction of the trail have been previously discussed and presented and remain essentially the same. A presentation of the proposed trail route, cost and time line will be presented at 6:00 (?) pm on April 13, 2004 at the city building. Some time will be allotted for public comment. We invite everyone interested to attend this meeting. If you are unable to attend the meeting and would like to comment on the project please drop off written comments at the

VOLUNTEER MESSAGE

"When I was younger, I didn't care what happened. It wasn't that things were going well. That's not it. Actually, things were going pretty bad. It seems Mom was always tired or discouraged. I didn't realize it at the time, but she wasn't happy. None of us were. Several times she almost had a nervous breakdown. That's when everything went to pot. She never cleaned the house or cooked any meals. Bubba and I just kept leaving piles of clothes and toys all over the apartment, but she didn't clean them up. So when she was this way, we just pretended to be sick and stayed home. Some times we really were sick and had to see the doctor. But things started to change after our mentor started coming to see us regularly. At first he gave us things we wanted and tried to entertain us. But as we got used to his coming every week, we trusted him more. We started to learn about interesting things, exploring places we hadn't been (which was just about everywhere), reading more and noticing how we looked and how our apartment looked. It was fun to do new things and meet different people, although we were very shy at first. I would say our mentor helped us to join the world around us and helped us to improve ourselves." If you want to change one person's world in an hour each week, call Norman Smith at 798-1609.
