

## Elk Ridge Bugle

Andrea Muhlestein - Editor

Greetings from the Mayor...

With the holidays upon us it would seem appropriate to write something of good cheer. So, Merry Christmas everyone. The inspirational bit will be the absence of a long letter from the Mayor. However, a couple of short subjects do need to be addressed.

We continue to have multiple complaints about loose dogs, barking dogs, harassment by dogs, and on and on. A piece of information that may have some significance to anyone letting their dogs run loose is a report I just received from the county regarding dogs that were picked up. The bill was for \$490. It covered the cost of destroying ten dogs. While it may appear that the city does nothing regarding loose dogs this report testifies that at least ten dogs no longer roam the streets. I feel badly that destroying a household pet takes place but when no one claims the animal there are few choices.

A second element that needs addressing is the parking of boats, cars, trucks, etc. on the side of our roads during winter weather. The truck drivers are authorized to call the sheriff and have the vehicles towed at the owners expense. We are enforcing this ordinance now.

**Winter Parking  
Ordinance will be  
enforced!!!  
You will be towed  
&/or ticketed.**

December 2004
