Elk Ridge Bugle

Andrea Muhlestein - Editor

Message from the Mayor...

It looks as though the change at Park and Elk Meadows (the T-intersection) will not take place as quickly as possible. Bids received have put it out of financial reach for the moment. Please be patient with the processes of government.

As I have visited other communities throughout the state, I have had first impressions that run from, "How beautiful", to "How ugly". When I take the time to think about what I've seen, the conclusion I come to is that the communities that look the best are a result of the citizens taking the time to take care of their properties. It is important to realize that this city looks its best when your yards are kept clean and attractive. The challenge I give to each of you is to take care of what you have and express yourselves with hard work and positive attitude. Make a statement of how great Elk Ridge is by making it look its best because you look your best.

Our hook-up to the Payson sewer is a little behind schedule also because the bid for that project was a million dollars over budget. I will keep you posted with additional updates.

New Public Information Officer

Bob Van Parys

Please remember to clear the brush around your homes so that there is a break between you and the large amount of brush we have here in Elk Ridge. For those of you with a Fire Hydrant on your property, be sure that there is a 3'X3' clearance around the hydrant. There should be no fencing blocking access to the hydrant. If you have any questions concerning fire safety, call me at 423-1257.

We do have a water fountain
