PUBLIC FORUM 53 54 Rosemarie Evans – wondered if the limited sewer connections could have a lottery instead of first come 55 first serve and they have a smaller lot and would like a smaller minimum lot size. Karl Shuler – wants to reiterate that a base density of 1 acre or ½ or smaller for bonus density for parking, 56 trails etc. would be hard if the 4-acre lot size is in place. 57 KC Bush - Lives on High Sierra and is concerned about traffic on High Sierra. It was not designed for high 58 traffic. Also concerned about fire/emergency services, water, and sewer. 59 Steve Simmons – lives on High Sierra and is concerned about traffic and are the citizens going to have to pay 60 for the infrastructure. 61 Jed Ottesen- his property has been in the news recently because his foundation is crumbling, and his family 62 has reached the end of their rope. They will be walking away from their home due to the consequences of bad 63 development. He wants a response from the city of what happened back then and how are you going to see 64 that it doesn't happen in the future. They cannot get any help and were offered pennies on the dollar for their 65 home from and they are exhausted after 5 years of red tape from the federal government. 66 67 REGULAR CITY COUNCIL MEETING AGENDA ITEMS: 68 69 1. CE3 Discussion 70 Mayor Haddock stated the deadline for the CE3 is August 30th. Continue discussion from work session. The planning commission members present all prefer 1 acre lots with no clustering. Trails and 71 open space are top priority as well as fire mitigation. Discussion ensued on trials, types of trails and 72 open space and slopes and the best way to provide access to the mountain in everyone's best interest 73 but the city has legal right to set up zones in their city as per state code. Discussion ensued on 74 75 whether the city should make 2 different codes for this area. Discussion ensued on areas that would not be able to connect to the sewer.
