		4	2	1	1				
Sick	Choke	Diabetic	COVID						
7		1							

- \* Recruiting and maintaining FD personnel is job #1. Currently working on line information to target specific city age groups that could be become FD members and be part of our team. This includes updating the city FD web page to give more info to potential members looking for the requirements to become an EMT or FF.
- \* Basic Ambulance Transport is still our goal, but personnel shortages have limited the EMTs to be available to cover all shifts. Incentivised payroll has helped current members but has not shown any effect on recruiting. Still fighting back from the loss of 6ea EMTs over 3 months 2yrs ago
