Memorandum For Elk Ridge City Council

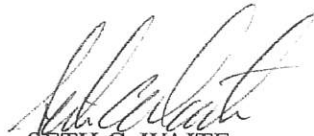

SUBJECT: Request for Excess Fire Truck to be sent to surplus

Request permission to list the 1992 Ford Rescue Truck that is currently out of service and not stocked with any equipment to be sold at state surplus. It is unknown what the actual worth is so in light of the tool box bed, working 4-Wheel drive and it's basic operation, I recommend starting the auction at \$2000.00 and see what a potential buyer is willing to do in the bidding process.

The truck has served the city well and was replaced a couple years back by the new Rescue 222 that also doubles as a second engine and is fully functioning and in excellent condition. There has been no need for this truck, even by the city, and will only cause us to spend more on it as time goes by to keep it running.

The Fire Department will absolutely work through the correct surplus procedures to sell off this excess truck and proceeds will go back to the city as we have done in the past.

Your approval and permission would be greatly appreciated. Any questions can be directed to the undersigned.

SETH C. WAITE
Fire Chief
Elk Ridge Fire Department
