

Utah Pollutant Discharge Elimination System Storm Water Program

Small MS4 Report Form

The purpose of this report is to contribute information to an evaluation of the UPDES small municipal separate storm sewer system (MS4) permit program. Consistent with 40 CFR §122.37 the Utah Department of Environmental Quality is assessing the status of the storm water program. A "no" answer to a question does not necessarily mean noncompliance with your permit or with the federal regulations. In order to establish the range of variability in the program it is necessary to ask questions along a fairly broad performance continuum.

10. Additional Information

In the space below, please include any additional information on the performance of your MS4 program. If providing clarification to any of the questions on this form, please provide the question number (e.g., 2C) in your response.

I have begun work to implement this program for the city of Elk Ridge. I will move forward with this by attending the Utah County Storm Water Coalition and understand if this will benefit my city. I will also keep in contact with Trisha DiPaola with the Department of Water Quality in Utah for advice and instructions on how I can further the SWMP for Elk Ridge City. Thank you for the time taken for myself and Royce to have a better understanding on November 4th. This was a big help to us.
